CAREER OBJECTIVE

Enthusiastic Python Full Stack Developer with practical exposure to web application development, cloud deployment, and CI/CD practices. Seeking an opportunity to contribute to innovative software solutions while enhancing my expertise in modern development technologies and delivering value to the organization.

EDUCATION

P.D.A College of Engineering.

Dept of Electronics and Communication Engineering.
Kalburgi , Karnataka.

Expected Graduation (2022-2026)

Cgpa-7.0(7thsem)

PROJECTS

1. IOT-ENABLED WOMEN'S SAFETY BAG FOR EMERGENCY ALERTING AND TRACKING.

- Smart bag for women's safety purpose using Arduino as a processing unit.
- GPS and GSM module are using for tracking the location and sending message to the receiving system.

2. AI-DRIVEN PHYTO-PATHOLOGICAL ANALYSIS FOR SUGARCANE YIELD OPTIMIZATION.

- Developed an AI-assisted disease detection system for sugarcane plants.
- Utilized image analysis techniques for identifying Red Rot disease.
- Worked on dataset collection, preprocessing, and disease classification concepts.
- Integrated Raspberry Pi and camera modules for real-time monitoring.

INTERNSHIP

Python Full Stack with GenAI – DHEE CODING LAB :

- Developed web applications using Python, HTML, CSS, JavaScript, and SQL
- Worked with Generative AI tools and prompt engineering techniques.

TECHNICAL STRENGTH

- **Technical Skills:** Python Programming, C, HTML, CSS, SQL, Fundamentals of Mongo DB, OOP's, Numpy .
- **Languages :** Python, HTML, Javascript .
- **Domain knowledge:** Electronic Component classification, Circuit Knowledge, Semiconductor Devices, Microcontrollers.
- **Tools :** VSCode, Cadence, Matlab, Oracle SQL, Sublime Text, MS Excel, Chatgpt, Gemini ,Claude.
- **Soft skills:** Teamwork, Problem solving, Time management, Communication, MS PowerPoint, MS word, Technical Communication.

CERTIFICATIONS

- IT Specialist : Network Security–Certiport/Pearson VUE(Jan2025).

EXTRA CURICULAR

- Actively participated in a 2 days certified training session on “TRACKING SATELLITES AND RECEIVING WEATHER IMAGES BY CONSTRUCTING YAGI-UDA ANTENNA” organised by (Upgrah Amateur Radio club of UR Rao Satellite Centre on Oct-2024).
- Actively participated at the Start-up and Entrepreneurship program held at our college campus.
